GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Identifies if the gap between the special education suspension rate and the general education suspension rate exceeds the state-allowable threshold of **1.36** percentage points.

04-B: Suspensions & Expulsions *greater than 10 days* *(Data from **2023/2024** school year)*	**0.00%**	**0.00%**	**<=4.00**	**Y**	**N/A**	↔

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Indicator 05: Educational Environment

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from StateTarget	Year-to-Year LEA Rate Change

05-C: Served in **separate settings** (e.g., Day Schools, Residential, Hospital/Homebound) and does not include students in correctional facilities or private schools. ***Goal:*** *Decrease (less than or equal to target)*	**1.99%**	**1.62%**	**0.00%**	**Y**	**N/A**	↔

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Indicator 06: Preschool Environment
This indicator identfies the percentage of educational environment of the chiildren with IEPs aged 3, 4, and 5 who are enrolled in a preschool program.

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

***Note on N/A: "LEA Rate", "Target Met by LEA"**, and **"LEA Difference from State Target"** may be reported as **N/A** if the LEA does not operate an early childhood special education program or if there were fewer than five (5) students who met the entry and exit requirements (minimum of 6 months in the program) during the reporting period.*

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change
Preschool Parent Involvement Survey (aged 3-5)	**93.86%**	**91.17%**	**N/A**	**N/A**	**N/A**	▬▬
School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**100.00%**	**Y**	**N/A**	↑

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Were inappropriate policies, procedures, or practices identified by the state? **N/A**

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Were inappropriate policies, procedures, or practices identified by the state? **N/A**

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find
*This indicator identifies the percentage of children for whom parental consent to evaluate was received and who were evaluated within the state-established timeline of **60 days**.*

- *if the LEA had zero (0) new initial referrals for evaluation during the reporting period, or*
- *if the number of referrals was too small **(fewer than 5)** to ensure student confidentiality.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

***Note on N/A: "LEA Rate", "Target Met by LEA"**, and **"LEA Difference from State Target"** may be reported as **N/A** if the LEA does not operate an early childhood special education program or if there were fewer than five (5) students who met the entry and exit requirements (minimum of 6 months in the program) during the reporting period.*

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

Preschool Parent Involvement Survey (aged 3-5)	**93.86%**	**91.17%**	**N/A**	**N/A**	**N/A**	▬▬
School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**98.03%**	**Y**	**N/A**	↑

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Were inappropriate policies, procedures, or practices identified by the state? **N/A**

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Were inappropriate policies, procedures, or practices identified by the state? **N/A**

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find
*This indicator identifies the percentage of children for whom parental consent to evaluate was received and who were evaluated within the state-established timeline of **60 days**.*

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N**

Identifies if the gap between the special education suspension rate and the general education suspension rate exceeds the state-allowable threshold of **1.36** percentage points.

04-B: Suspensions & Expulsions *greater than 10 days* *(Data from **2023/2024** school year)*	**0.00%**	**0.00%**	**<=4.00**	**Y**	**N/A**	↔

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Indicator 05: Educational Environment

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from StateTarget	Year-to-Year LEA Rate Change

05-C: Served in **separate settings** (e.g., Day Schools, Residential, Hospital/Homebound) and does not include students in correctional facilities or private schools. ***Goal:*** *Decrease (less than or equal to target)*	**1.99%**	**1.62%**	**0.00%**	**Y**	**N/A**	↔

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Indicator 06: Preschool Environment
This indicator identfies the percentage of educational environment of the chiildren with IEPs aged 3, 4, and 5 who are enrolled in a preschool program.

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change
Preschool Parent Involvement Survey (aged 3-5)	**93.86%**	**91.17%**	**92.85%**	**N**	**1.01%**	↓
School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**98.27%**	**Y**	**N/A**	↓

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find
*This indicator identifies the percentage of children for whom parental consent to evaluate was received and who were evaluated within the state-established timeline of **60 days**.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**100.00%**	**Y**	**N/A**	⟷

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Identifies if the gap between the special education suspension rate and the general education suspension rate exceeds the state-allowable threshold of **1.36** percentage points.

04-B: Suspensions & Expulsions *greater than 10 days* *(Data from **2023/2024** school year)*	**0.00%**	**0.00%**	**<=4.00**	**Y**	**N/A**	↔

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Indicator 05: Educational Environment

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Indicator 06: Preschool Environment

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**100.00%**	**Y**	**N/A**	⟷

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find
*This indicator identifies the percentage of children for whom parental consent to evaluate was received and who were evaluated within the state-established timeline of **60 days**.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Indicator 05: Educational Environment

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**100.00%**	**Y**	**N/A**	⟷

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Indicator 05: Educational Environment

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

05-C: Served in **separate settings** (e.g., Day Schools, Residential, Hospital/Homebound) and does not include students in correctional facilities or private schools. ***Goal:*** *Decrease (less than or equal to target)*	**1.99%**	**1.62%**	**0.88%**	**Y**	**N/A**	↑

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Indicator 06: Preschool Environment
This indicator identfies the percentage of educational environment of the chiildren with IEPs aged 3, 4, and 5 who are enrolled in a preschool program.

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

***Note on N/A: "LEA Rate", "Target Met by LEA"**, and **"LEA Difference from State Target"** may be reported as **N/A** if the LEA does not operate an early childhood special education program or if there were fewer than five (5) students who met the entry and exit requirements (minimum of 6 months in the program) during the reporting period.*

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change
Preschool Parent Involvement Survey (aged 3-5)	**93.86%**	**91.17%**	**N/A**	**N/A**	**N/A**	▬▬
School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**93.93%**	**N**	**2.04%**	↑

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find
*This indicator identifies the percentage of children for whom parental consent to evaluate was received and who were evaluated within the state-established timeline of **60 days**.*

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** — **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** — **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:

(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.

(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Indicator 06: Preschool Environment
This indicator identfies the percentage of educational environment of the chiildren with IEPs aged 3, 4, and 5 who are enrolled in a preschool program.

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**96.25%**	**Y**	**N/A**	↑

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**N/A**	**N/A**	**N/A**	▬

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Indicator 06: Preschool Environment

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Note on N/A: "LEA Rate", "Target Met by LEA", *and* ***"LEA Difference from State Target"*** *may be reported as* ***N/A*** *if the LEA does not operate an early childhood special education program, the student population in that category is fewer than five (5), or the LEA successfully met the state performance target.*

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

***Note on N/A: "LEA Rate", "Target Met by LEA"**, and **"LEA Difference from State Target"** may be reported as **N/A** if the LEA does not operate an early childhood special education program or if there were fewer than five (5) students who met the entry and exit requirements (minimum of 6 months in the program) during the reporting period.*

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change
Preschool Parent Involvement Survey (aged 3-5)	**93.86%**	**91.17%**	**N/A**	**N/A**	**N/A**	▬▬
School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**84.61%**	**N**	**11.36%**	↓

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

State compliance review triggered by Rate Gap (Self-Assessment and Review of Policies, Procedures, and Practices required)? **Y or N** **N**

Were inappropriate policies, procedures, or practices identified by the state? **Y or N** **N/A**

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Indicator 06: Preschool Environment

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from State Target	Year-to-Year LEA Rate Change
Preschool Parent Involvement Survey (aged 3-5)	93.86%	91.17%	N/A	N/A	N/A	▬▬

- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

School-Age Parent Involvement Survey (K-12)	**95.97%**	**96.74%**	**N/A**	**N/A**	**N/A**	▬

Note on N/A:

- ***"LEA Rate", "Target Met by LEA",*** *and* ***"LEA Difference from State Target"*** *may be as* ***N/A*** *if the LEA does not operate that specific program type (e.g., Preschool only).*
- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

11: Child Find

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

Compares suspension rates by race/ethnicity. An LEA is identified for review if the difference between the general education rate (all races) and the special education rate for a specific racial group exceeds **4.00** percentage points.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Percentages of the educational environments for students with IEPs aged 5 (Kindergarten) through 21.

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*

LEAST RESTRICTIVE ENVIRONMENT (Preschool)

EARLY CHILDHOOD OUTCOMES

Indicator 07: Early Childhood Outcomes

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

This indicator measures the progress children make between entering and exiting preschool in three key areas:
(A) Social-Emotional, **(B) Knowledge and Skills**, and **(C) Appropriate Behaviors**.

- **Summary Statement 1:** Percent of children who entered the program below age expectations and substantially increased their rate of growth by the time they exited.
- **Summary Statement 2:** Percent of children who were functioning within age expectations by the time they exited.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

"Arkansas utilizes two independent surveys to capture parent feedback: one for Early Childhood (Preschool) programs and one for School-Age (K-12) programs."

- *Also, to ensure student and parent confidentiality,* ***N/A*** *will be reported if there were no surveys returned, or if the number of responses was fewer than 5.*

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

10: Disproportionality - Child with a Disabiilty
Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

Note:** These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.

***(1) State Target/Rate:** Represents the percentage of LEAs in Arkansas identified as having inappropriate identification policies. The State Target is **0.00%,** since this is a **compliance requirement**.*

***(2) LEA Identification:** An LEA is identified for review if their Risk Ratio exceeds the threshold of **3.00**.*

***(3) Target Met (Y):** An LEA meets the target if they stay **below** the risk ratio threshold OR if a review determines that their identification practices are appropriate and compliant with IDEA.*

CHILD FIND: TIMELY EVALUATION

Ensuring that students referred for special education are evaluated within the state-mandated 60-day timeline.

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.
The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

PARENT INVOLVEMENT OUTCOMES

Indicator 08: Parent Involvement

The percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

*Disproportionality is measured using a **Risk Ratio**. A risk ratio compares the likelihood of one racial/ethnic group being identified for services compared to all other groups. A risk ratio above **3.00** triggers a mandatory review of the LEA's policies, procedures, and practices.*

9: Disproportionate Representation - Overall Special Education Eligibility
Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under IDEA Section 618(d), etc.).

GRADUATION & DROPOUT PERCENTAGES

Indicator 1: Graduation and Indicator 2: Dropout
Both indicators are based on special education exiting data for students ages 14–21 for the specified year. The calculation represents the number of students with disabilities (SWD) who graduated with a regular diploma (or dropped out) divided by the total number of SWD who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data.

Note: *These indicators only serve **school age (K-12)** students, therefore, a district that only serves **preschool** will report **N/A.***

Measurement Criteria:
(1) State Target/Rate: Reflects the percentage of districts statewide whose suspension rates for students with disabilities significantly exceed general education rates.
(2) Small Populations: If an LEA has a rate difference exceeding the threshold but **"Target Met"** is marked **"Y"** and review is **"N"**, this indicates the calculation included **fewer than 5 students**, exempting the LEA from the **self-assessment** requirement.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Note: *The designation of **N/A** (Not Applicable) within the "LEA Difference" column for Indicator 5 is utilized in the following specific instances:*

- ***Target Met (Performance):*** *If the LEA Rate meets or exceeds the State Target for Indicator 5A, or stays below the State Target for Indicators 5B and 5C, the difference is recorded as **N/A**. This signifies that the agency has successfully achieved the performance threshold for that environment.*
- ***Statistical Reliability & Privacy (Small N-Size):*** *To protect student confidentiality and ensure data integrity, a numerical difference is not calculated if the number of students in the specific placement category is fewer than **five (5)**.*
- ***Zero Population:*** *If an LEA does not serve any students within the specific age range (e.g., an agency that only serves early childhood or a district with zero students in a specific placement type), a mathematical variance cannot be established.*
