

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0101: DEWITT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2022/2023 School Year)	88%	89.95%	100.00%	Y	N/A	↔

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0201: CROSSETT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0203: HAMBURG SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0303: MOUNTAIN HOME SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0304: NORFORK SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0401: BENTONVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0402: DECATUR SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0403: GENTRY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0405: ROGERS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0406: SILOAM SPRINGS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0440: ARKANSAS ARTS ACADEMY

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0442: FOUNDERS CLASSICAL ACADEMY OF ARKANSAS

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0501: ALPENA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0502: BERGMAN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0504: OMAHA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0505: VALLEY SPRINGS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0520: OZARK UNLIMITED RESOURCES COOPERATIVE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0601: HERMITAGE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	Y			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0701: HAMPTON SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0801: BERRYVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0803: GREEN FOREST SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0901: DERMOTT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1002: ARKADELPHIA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1003: GURDON SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1020: DAWSON EDUCATION SERVICE COOPERATIVE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1104: PIGGOTT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1106: RECTOR SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1202: HEBER SPRINGS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1203: QUITMAN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1304: WOODLAWN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1305: CLEVELAND COUNTY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1408: EMERSON-TAYLOR-BRADLEY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1503: NEMO VISTA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1505: WONDERVIEW SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1507: SOUTH CONWAY COUNTY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1520: ARCH FORD EDUCATION SERVICE COOPERATIVE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1602: WESTSIDE CONS. SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1603: BROOKLAND SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1608: JONESBORO SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1611: NETTLETON SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1613: RIVERSIDE SCHOOL DISTRICT - CRAIGHEAD

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1701: ALMA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1702: CEDARVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1704: MULBERRY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1705: VAN BUREN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1803: WEST MEMPHIS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1804: MARION SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1905: WYNNE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2002: FORDYCE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2105: MCGEHEE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2202: DREW CENTRAL SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2220: SOUTHEAST ARKANSAS EDUCATIONAL SERVICE COOPERATIVE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2301: CONWAY PUBLIC SCHOOLS

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2304: GUY-PERKINS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2305: MAYFLOWER SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2306: MT. VERNON-ENOLA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2402: CHARLESTON SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2403: COUNTY LINE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2420: GUY FENTER EDUCATION SERVICE COOPERATIVE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2501: MAMMOTH SPRING SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2503: VIOLA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2601: CUTTER-MORNING STAR SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2603: HOT SPRINGS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2604: JESSIEVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2605: LAKE HAMILTON SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2607: MOUNTAIN PINE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2703: POYEN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2803: MARMADUKE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2807: GREENE COUNTY TECH SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2901: BLEVINS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2903: HOPE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2022/2023 School Year)	88%	89.95%	83.33%	N	4.67%	↓

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2920: SOUTHWEST ARKANSAS EDUCATIONAL COOPERATIVE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3001: BISMARCK SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.
