LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3002: GLEN ROSE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2022/2023 School Year)	88%	89.95%	75.00%	N	13.00%	↓
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2022/2023 School Year)	10.00%	7.72%	25.00%	N	15.00%	↑

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3004: MALVERN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3005: OUACHITA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3104: MINERAL SPRINGS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3105: NASHVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3209: SOUTHSIDE SCHOOL DISTRICT - INDEPENDENCE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

Indicator 10: Disproportionality - Child with a Disability

Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under 618(d), etc.).

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3211: MIDLAND SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3301: CALICO ROCK SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3302: MELBOURNE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3320: NORTH CENTRAL ARKANSAS EDUCATION SERVICE CENTER

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3403: NEWPORT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

DISCIPLINE RATES & DISPROPORTIONALITY in DISCIPLINE

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3505: PINE BLUFF SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3509: WATSON CHAPEL SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3510: WHITE HALL SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2022/2023 School Year)	88%	89.95%	100.00%	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↓

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3544: FRIENDSHIP ASPIRE ACADEMY

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3599: AR DEPT. OF CORRECTION SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3604: LAMAR SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3606: WESTSIDE SCHOOL DISTRICT - JOHNSON

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3804: HOXIE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

Indicator 10: Disproportionality - Child with a Disability

Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under 618(d), etc.).

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3806: SLOAN-HENDRIX SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3810: LAWRENCE COUNTY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3820: NORTHEAST ARKANSAS EDUCATION SERVICE CENTER

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3904: LEE COUNTY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4003: STAR CITY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4102: FOREMAN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4201: BOONEVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4202: MAGAZINE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2022/2023 School Year)	88%	89.95%	75.00%	N	13.00%	↓

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4204: SCRANTON SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4301: LONOKE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4303: CARLISLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4304: CABOT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

4401: HUNTSVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4501: FLIPPIN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4502: YELLVILLE-SUMMIT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4603: FOUKE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4605: TEXARKANA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4702: BLYTHEVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4706: RIVERCREST SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4708: GOSNELL SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2022/2023 School Year)	88%	89.95%	57.14%	N	30.86%	↓

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4713: OSCEOLA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4801: BRINKLEY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4901: CADDO HILLS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

Indicator 10: Disproportionality - Child with a Disability

Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under 618(d), etc.).

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

4902: MOUNT IDA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5008: NEVADA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5102: JASPER SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5201: BEARDEN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator 7: Early Childhood Outcomes

There are two Summary Statements which are based the change between entry and exits scores for three outcome areas: (A) Social Emotional, (B) Knowledge and Skills, and (C) Appropriate Behaviors.

Summary Statement 1: Of those preschool children who entered the preschool program below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 6 years of age or exited the program.

Summary Statement 2: The percent of preschool children who were functioning within age expectations in each Outcome by the time they turned 6 years of age or exited

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5204: CAMDEN FAIRVIEW SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5220: SOUTH CENTRAL SERVICE COOPERATIVE

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5301: EAST END SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

5303: PERRYVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5403: HELENA/ W.HELENA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5404: MARVELL - ELAINE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

DISCIPLINE RATES & DISPROPORTIONALITY in DISCIPLINE

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5440: KIPP DELTA PUBLIC SCHOOLS

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5502: CENTERPOINT SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5504: SOUTH PIKE COUNTY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5602: HARRISBURG SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5605: TRUMANN SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5608: EAST POINSETT COUNTY SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5703: MENA SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5706: OUACHITA RIVER SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5801: ATKINS SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5802: DOVER SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5803: HECTOR SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5805: RUSSELLVILLE SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

5901: DES ARC SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔
Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6001: LITTLE ROCK SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

Indicator 10: Disproportionality - Child with a Disability

Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under 618(d), etc.).

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6002: N. LITTLE ROCK SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6004: JACKSONVILLE NORTH PULASKI SCHOOL DISTRICT

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6040: ACADEMIC PLUS CHARTER SCHOOL

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6043: ARKANSAS VIRTUAL ACADEMY

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6047: ESTEM PUBLIC CHARTER SCHOOL

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N			Were Inappropriate Policies, Procedures, and Practices Identified by the State		N/A
Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6052: GRADUATE ARKANSAS CHARTER HIGH

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

6053: PREMIER HIGH SCHOOL OF LITTLE ROCK

2023 - 24 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts whose special education rate exceeds the general education rate by more than 1.36 percentage points. (2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.						
Indicator 04-B: Suspensions & Expulsions for > than 10 days by Special Education Race vs. General Education all races. (Data from 2022/2023 school year)	0.00%	0.00%	<=4.00	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.
