

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

In accordance with IDEA, the Office of Special Education is required annually to report on local education agencies (LEA) performance against the state targets outline in the Special Education State Performance Plan (SPP).

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Additionally, some indicators are not applicable to all LEAs due to the structure of the special education program and the grade levels served.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represent the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

N/A

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

School Age (k-12) Rate	100%	100%	100%	Y	N/A	↔

2020-21 (4A)

Differences in the data year used for analysis resulted in an adjustment to the number of LEAs identified with significant discrepancy and a corresponding change in the reported 4A percentage.

2020-21 (4B)

Differences in the data year used for analysis led to adjustments in the number of LEAs meeting minimum cell size requirements. These updates did not impact the overall 4B percentage reported.

If there is no data generated from a district for a given indicator, there will be no data reported. Therefore, some indicators (like 14) may appear blank for a district, even if there are graduates in the specified year, because no graduates responded to the survey, and therefore no data was reported for that district.
