

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0101 : DEWITT SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↑
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	0.00%	Y	N/A	↓

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

*Secondary Transition data is collected annually during monitoring. Each LEA is on a 4-year monitoring cycle; therefore, the current measures reported in Indicator are only for those LEAs monitored in the APR report year. Below is the most recent data for LEAs not monitored during the APR report year. Some may be marked not applicable because they operate an early childhood program only or do not have students in the age group of 16-21.

Post-School Outcomes

Indicator 14: Post-School Outcomes*

Percent of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:

A. Enrolled in higher education within one year of leaving high school.

B. Enrolled in higher education or competitively employed within one year of leaving high school.

C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0201 : CROSSETT SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	94.11%	Y	N/A	↑

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0303 : MOUNTAIN HOME SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0402 : DECATUR SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0403 : GENTRY SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	0.00%	Y	N/A	↔

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0405 : ROGERS SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	93.33%	Y	N/A	↓
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	3.33%	Y	N/A	↑

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

*Secondary Transition data is collected annually during monitoring. Each LEA is on a 4-year monitoring cycle; therefore, the current measures reported in Indicator are only for those LEAs monitored in the APR report year. Below is the most recent data for LEAs not monitored during the APR report year. Some may be marked not applicable because they operate an early childhood program only or do not have students in the age group of 16-21.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0440 : ARKANSAS ARTS ACADEMY

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

0442 : FOUNDERS CLASSICAL ACADEMY OF ARKANSAS

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔

*Secondary Transition data is collected annually during monitoring. Each LEA is on a 4-year monitoring cycle; therefore, the current measures reported in Indicator are only for those LEAs monitored in the APR report year. Below is the most recent data for LEAs not monitored during the APR report year. Some may be marked not applicable because they operate an early childhood program only or do not have students in the age group of 16-21.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0445 : HOPE ACADEMY OF NORTHWEST ARKANSAS

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0503 : HARRISON SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0506 : LEAD HILL SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0602 : WARREN SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may not be applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0802 : EUREKA SPRINGS SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

0901 : DERMOTT SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

0903 : LAKESIDE SCHOOL DISTRICT -CHICOT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1020 : DAWSON EDUCATION SERVICE COOPERATIVE

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1106 : RECTOR SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may not be applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1203 : QUITMAN SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1204 : WESTSIDE SCHOOL DISTRICT -CLEBURNE

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may not be applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Were Inappropriate Policies, Procedures, and Practices Identified by the State

N/A

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1305 : CLEVELAND COUNTY SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1402 : MAGNOLIA SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1503 : NEMO VISTA SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1505 : WONDERVIEW SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1520 : ARCH FORD EDUCATION SERVICE COOPERATIVE

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1601 : BAY SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1603 : BROOKLAND SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1605 : BUFFALO IS. CENTRAL SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may not be applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1611 : NETTLETON SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

1612 : VALLEY VIEW SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	95.45%	Y	N/A	↓
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	4.54%	Y	N/A	↑

Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1701 : ALMA SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1702 : CEDARVILLE SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↑

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1704 : MULBERRY SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1705 : VAN BUREN SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1803 : WEST MEMPHIS SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1804 : MARION SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1901 : CROSS COUNTY SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

1905 : WYNNE SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↑
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	0.00%	Y	N/A	↓

Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2105 : MCGEHEE SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	75.00%	N	13.00%	↓
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	25.00%	N	15.00%	↑

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2220 : SOUTHEAST ARKANSAS EDUCATIONAL SERVICE COOPERATIVE

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2301 : CONWAY PUBLIC SCHOOLS

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may not be applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

*Secondary Transition data is collected annually during monitoring. Each LEA is on a 4-year monitoring cycle; therefore, the current measures reported in Indicator are only for those LEAs monitored in the APR report year. Below is the most recent data for LEAs not monitored during the APR report year. Some may be marked not applicable because they operate an early childhood program only or do not have students in the age group of 16-21.

Post-School Outcomes

Indicator 14: Post-School Outcomes*

Percent of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:

A. Enrolled in higher education within one year of leaving high school.

B. Enrolled in higher education or competitively employed within one year of leaving high school.

C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

*The PSO data is collected on each district at least once every six-years. For those LEAs whose students were not scheduled to be surveyed for the current APR report year, the most recent data available is below. Some LEAs are marked as "Not Applicable" because they had no students meeting the data collection criteria (ages 14-21 who had an IEP at the time they exited high school) in the year of survey or there was no response to the survey.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2304 : GUY-PERKINS SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	80.00%	N	8.00%	↓

*Secondary Transition data is collected annually during monitoring. Each LEA is on a 4-year monitoring cycle; therefore, the current measures reported in Indicator are only for those LEAs monitored in the APR report year. Below is the most recent data for LEAs not monitored during the APR report year. Some may be marked not applicable because they operate an early childhood program only or do not have students in the age group of 16-21.

Post-School Outcomes

Indicator 14: Post-School Outcomes*

Percent of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:

A. Enrolled in higher education within one year of leaving high school.

B. Enrolled in higher education or competitively employed within one year of leaving high school.

C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2307 : VILONIA SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2404 : OZARK SCHOOL DISTRICT - FRANKLIN

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2502 : SALEM SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2601 : CUTTER-MORNING STAR SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2602 : FOUNTAIN LAKE SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	76.66%	N	11.34%	↓
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	23.33%	N	13.33%	↑

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

*Secondary Transition data is collected annually during monitoring. Each LEA is on a 4-year monitoring cycle; therefore, the current measures reported in Indicator are only for those LEAs monitored in the APR report year. Below is the most recent data for LEAs not monitored during the APR report year. Some may be marked not applicable because they operate an early childhood program only or do not have students in the age group of 16-21.

Post-School Outcomes

Indicator 14: Post-School Outcomes*

Percent of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:

A. Enrolled in higher education within one year of leaving high school.

B. Enrolled in higher education or competitively employed within one year of leaving high school.

C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2605 : LAKE HAMILTON SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2703 : POYEN SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

*Secondary Transition data is collected annually during monitoring. Each LEA is on a 4-year monitoring cycle; therefore, the current measures reported in Indicator are only for those LEAs monitored in the APR report year. Below is the most recent data for LEAs not monitored during the APR report year. A. Enrolled in higher education within one year of leaving high school.

B. Enrolled in higher education or competitively employed within one year of leaving high school.

C. Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2807 : GREENE COUNTY TECH SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	66.66%	N	21.34%	↓
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	33.33%	N	23.33%	↑

Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

2903 : HOPE SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may not be applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3001 : BISMARCK SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change

(2) The LEA rate is the difference between the general education rate and special education rate. Any LEA that exceed the allowable 1.36 percentage points difference must complete a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 1.36 percentage points and target met equals "Y" indicates there were fewer than 5 students in the calculation; therefore the LEA was not required to complete a self-assessment.

Notes: (1) State rate and state target are based on the percent of districts identified as having inappropriate policies, procedures, and practices. (2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

3002 : GLEN ROSE SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↑
Indicator 02: Dropout: Percent of youth with IEPs dropping out of high school. (Data is from the 2021/2022 School Year)	10.00%	9.38%	0.00%	Y	N/A	↓

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

(2) LEA rate is based on whether or not a LEA was identified as having possible disproportionality. Identification is the difference between the general education rate for all races and special education rate for specific races. Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LOCAL EDUCATION AGENCY SPECIAL EDUCATION ANNUAL PERFORMANCE REPORT

3004 : MALVERN SCHOOL DISTRICT

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may be not applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

2022 - 23 Annual Performance Report

Some data used in the report are a year in arrears due to availability and/or an additional requirement to review policies, procedures, and practices.

Indicators may not be applicable to all LEAs due to the structure of the special education program, the grade levels served, or the data does not meet the measurement criteria. Examples for an Indicator being not applicable may include:

Indicator 1: Graduation may be not applicable if an LEA does not have a high school (Charter School or Educational Cooperative who only serves early childhood special education) or the special education exiting data had zero graduates of any type (regular/certificate/alternate pathway).

Indicator 2: Dropout may be not applicable if an LEA does not have students ages 14-21 or have no students who meet the measurement criteria.

Indicator 3: Assessment may not be applicable if the LEA does not have students with IEPs in grades 4, 8 or high school (9-12). For example, some Charter Schools, the educational cooperative who only serves early childhood special education, or state agencies outside the education system). Further, if an LEA has zero students taking the alternate assessment in specific grades, Indicator 3C would be not applicable. Indicator 3D is not applicable for early childhood and outside state agencies.

Indicator 4: Suspension and Expulsion (Discipline) may be not applicable if the LEA does not meet the measurement criteria.

Indicator 5: Educational Environments (5-21 school age) may be not applicable if the LEA only serves preschool children or is a specialized setting such as corrections.

Indicator 6: Preschool Environments may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 7: Preschool Outcomes may be not applicable if the LEA does not operate an early childhood special education program.

Indicator 8: Parent Involvement may be because an LEA does not operate an early childhood or school age program. Arkansas has two separate surveys one for early childhood and one for school age programs.

Indicator 9: Disproportionate Representation may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 10: Disproportionate Representation in Specific Disability Categories may be not applicable because they are an early childhood program or they do not meet the measurement criteria.

Indicator 11: Child Find may be not applicable if the LEA had zero new initial referrals.

Indicator 12: Early Childhood Transition may be not applicable if the LEA does not operate an early childhood special education program or the early childhood program had zero Part C to Part B referrals.

Indicator 13: Secondary Transition may be not applicable for a given year because the LEA operates an early childhood program only or the LEA was not monitored in the year being reported.

Indicator 14: Post-School Outcomes may be not applicable for a given year because the LEA operates an early childhood program only, the LEA was not part of the sampling for the year being reported, or zero student information was found through the data collection processes.

Timely and Accurate Reporting would be not applicable if the LEA does not operate an early childhood or school age program.

GRADUATION & DROPOUT PERCENTAGES

The data source for Indicator 1: Graduation and Indicator 02: Dropout is the special education exiting data for students ages 14-21 for the specified year. The calculation is the number of SWD who graduated with a regular diploma (or dropped out) divided by those who exited special education with a regular diploma, certificate, alternate diploma, reached maximum age, or dropped out.

The percentages presented below represents the percent of graduates or dropouts in the source data. The percentages are NOT a Graduation or Dropout rate and should not be construed as such.

Indicator	State Target	State Percentage	LEA* Percentage	Target Met by LEA	LEA Difference from Target	Year to Year LEA Percent Change
Indicator 01: Graduation: Percent of youth with Individualized Education Programs (IEPs) exiting from high school with a regular high school diploma. (Data is from the 2021/2022 School Year)	88%	88.97%	100.00%	Y	N/A	↔

Any LEA with a difference >4 percentage point is identified for a review of policies, procedures, and practices. (3) Any LEA with a rate difference greater than 4.00 percentage points and target met equals "Y" indicates the LEA did not meet the minimum criteria for the calculation; therefore, the LEA was not required to complete a self-assessment.

LEAST RESTRICTIVE ENVIRONMENT (K-12)

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from Target	Year to Year LEA Rate Change
Indicator 05-A: Percent of children with IEPs aged 5 who are enrolled in kindergarten and aged 6 through 21 served inside the regular class 80% or more of the day.	58.07%	65.54%	60.22%	Y	N/A	↑
Indicator 05-B: Percent of children with IEPs aged 5 who are enrolled in kindergarten and aged 6 through 21 served inside the regular classroom less than 40% of the day.	11.88%	10.74%	1.14%	Y	N/A	↓
Indicator 05-C: Percent of children with IEPs aged 5 who are enrolled in kindergarten and aged 6 through 21 receiving special education services in other settings	1.99%	1.79%	0.00%	Y	N/A	↔
Note: Other settings includes Day Schools, Residential, and Hosptial/Home Bound but does not include students in correctional facilities or private schools

Indicator 7: Early Childhood Outcomes

There are two Summary Statements which are based the change between entry and exits scores for three outcome areas: (A) Social Emotional, (B) Knowledge and Skills, and (C) Appropriate Behaviors.

Summary Statement 1: Of those preschool children who entered the preschool program below age expectations in each Outcome, the percent who substantially increased their rate of growth by the time they turned 6 years of age or exited the program.

Summary Statement 2: The percent of preschool children who were functioning within age expectations in each Outcome by the time they turned 6 years of age or exited

Indicator 07-A: Preschool Outcomes Summary 1: Social Emotional	90.12%	89.50%	N/A	N/A	N/A	■■

Indicator 07-A: Preschool Outcomes Summary 2: Social Emotional	67.28%	65.04%	N/A	N/A	N/A	■■

Indicator 07-B: Preschool Outcomes Summary 1: Knowledge and Skills	90.64%	89.69%	N/A	N/A	N/A	■■

Indicator 07-B: Preschool Outcomes Summary 2: Knowledge and Skills	57.19%	50.63%	N/A	N/A	N/A	■■

Indicator 07-C: Preschool Outcomes Summary 1: Appropriate Behaviors	90.21%	91.64%	N/A	N/A	N/A	■■

DISPROPORTIONALITY: IDENTIFICATION & DISABILITY

Indicator	State Target	State Rate	LEA Rate	Target Met by LEA	LEA Difference from Target	Year to Year LEA Rate Change

Indicator 9: Disproportionality - Eligibility

Disproportionate representation of racial and ethnic groups in special education and related services that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under 618(d), etc.).

0.00%		<=3.00	Y	N/A	↔

Required to Complete a Self-Assessment and Review of Policies, Procedures, and Practices	N	Were Inappropriate Policies, Procedures, and Practices Identified by the State	N/A

Notes: (1) State rate and state target are based on the percent of LEAs identified as having inappropriate policies, procedures, and practices. (2) The LEA rate is based on if the risk ratio exceeded the cut score of 4; any LEA with a risk ratio greater than 4 is required to complete a review of policies, procedures, and practices.

Indicator 10: Disproportionality - Child with a Disability

Disproportionate representation of racial and ethnic groups in specific disability categories that is a result of inappropriate identification (e.g. monitoring data, review of policies, practices, and procedures under 618(d), etc.).

0.00%		<=3.00	Y	N/A	↓
