Technical Application

Purpose in Reviewing Data

Student and employee data are entered in APSCN Special Education Module. The data you entered into APSCN is pulled into MySped Resource. MySped Resource application provides the opportunity to review, verify, and make corrections to the data to ensure accurate federal reporting.

EC Coordinators and LEA Supervisors may use the following procedures to check for any errors, omissions, and/or discrepancies in their district's data. This manual provides step-by-step instructions and examples of various data review methods.

To efficiently review data, it is helpful to first understand the federal reporting requirements and the related data fields. For more information on the federal reporting requirements, please refer to the State Performance Plan (SPP) and the Annual Performance Review (APR) at https://dese.ade.arkansas.gov/Offices/special-education/data-research/public-reporting

Data Dictionaries, which contain detailed information on all of the federally required data fields, are also available on the internet at https://dese.ade.arkansas.gov/Offices/special-education/data-research/data-dictionaries

Possible Reasons for Making Changes in Data

- 1. **Updates** are needed to reconcile between the reporting period ended and APSCN submission
- 2. Data entry typos when keying in APSCN Special Education Module
- 3. Inaccurate **coding** when keying in APSCN Special Education Module
- 4. Formulas or glitches in the programming
- 5. Data not transferring correctly from APSCN to MySped

Access to MySped Database for Review:

- 1. Go to Arkansas Special Education website: https://arksped.ade.arkansas.gov/
- 2. Click on MySped Resource Portal
- 3. Type in User ID and Password and click on 'Sign-In'

Tips for Navigating the Application

- Use the Tab key or the mouse to navigate through the fields
- Data entry format is mm/dd/yyyy.
- Press SAVE before Exiting. Look for message in red at top of screen (Data has been saved.) to verify data has been saved. If the data did not save, the message will state the related problem. Correct the data as indicated in the message and press SAVE before exiting the screen.

Printing Data for Review

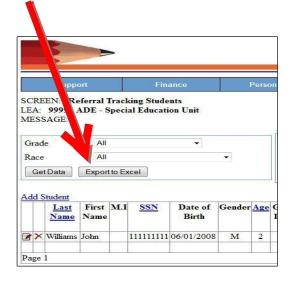

You may find it helpful to copy and print your district's data from MySped Resource. This allows you to work from a hard copy, distribute data for verification, and save a backup of your data. There are two different methods to extract and save data from MySped Resource: the copy and paste method and the 'Export to Excel' method.

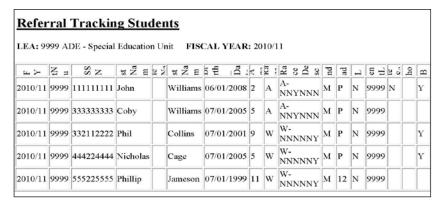

How to Copy and Paste Student Lists from MySped

- 1. Open up a blank/new Word document or Excel spreadsheet
- Go back to MySped and sort student list as needed
- 3. Left click inside the blank space/column above the first student notepad.
- 4. Hold down left mouse button and drag arrow pointer on mouse to bottom of student list. All records should be highlighted
- 5. Right click on mouse anywhere inside student list or highlighted area
- 6. Choose Copy
- 7. Go to open Word or Excel document (click on appropriate tab at bottom of computer screen)
- 8. Choose 'Edit' on menu bar at top of screen
- Choose 'Paste'
- 10. Save document and distribute to desired person to verify students

Save, Sort, and Review in 'Export to Excel'

Click on the 'Export to Excel' button at the bottom of the screen. This lists all the students and all the fields. Once you have saved the Excel file to your computer, open the file to create a list to sort and filter. Note that the file will download as 'Excel Report' and needs to be renamed.

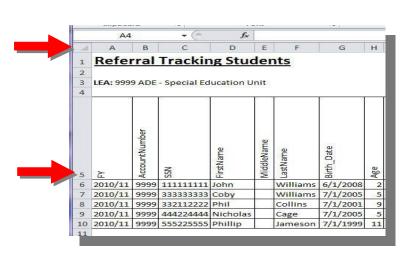

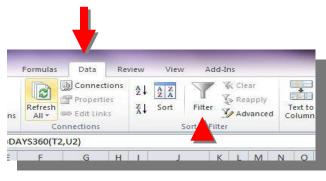

Create a List to Sort and Filter

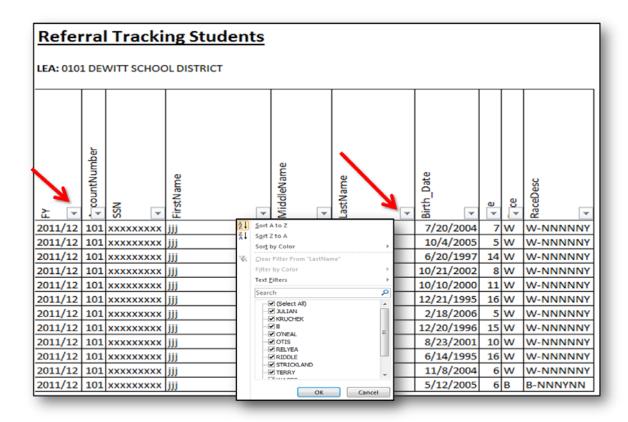

- 1. Click on the box in the top left corner
- 2. Click on Row 5 to highlight the row
- 3. Select the Data Tab on the menu bar ABOVE Spreadsheet.
- 4. Choose the filter option

Η

- "Deselect" the Select All option.
- 6. Choose the field you wish to search for.
- 7. Identify the needed changes.

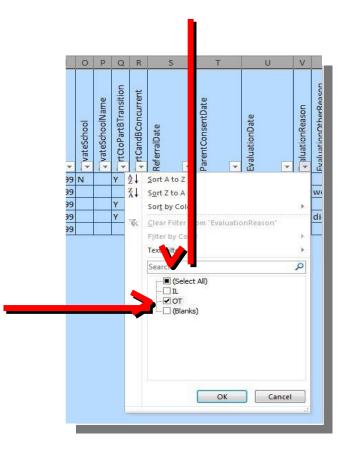

Any changes that are identified need to be made in the individual student or employee data in MySped. Making corrections in the Excel worksheet will NOT make automatic changes to MySped

Note: The IDEA office may check for discrepancies. You may be notified and asked to resolve the issue. Failure to respond to IDEA's requests may result in a trigger in 'Timely and Accurate Data' in your district's determination reports.

Correcting the Data

Once you have completed the review process using MySped Resource, you will need to make any necessary corrections. Make corrections and updates in three possible places:

- Update MySped to report accurate data;
- Update eSchool to maintain accurate data; and.
- Update your own personal file for record keeping and backup. We recommend you

use the 'Export to Excel' function to save your own Excel file. This allows you to refer to your data at any time and serves as a backup file in the event of technical difficulties. Remember, when you are reviewing in Excel, any corrections will need to be made in the individual student or employee application in MySped and possibly APSCN.
