

SPECIAL EDUCATION RESIDENTIAL PLACEMENT Registry for Facilities

**USER'S GUIDE
FY2022-23**

PROGRAM OVERVIEW

DESE receives an annual appropriation to reimburse school districts for educational costs for disabled and nondisabled students admitted for short-term and long-term placement in approved residential alcohol/drug abuse and psychiatric facilities. The facility must be an approved Arkansas residential facility.

The Residential Placement Registry Web Application was created to help simplify the processing of reimbursements for the educational costs for disabled and nondisabled students in a residential placement facility. The residential facility initiates the process by registering students in their facility into the online Residential Placement Registry system each quarter with the most accurate information. **The responsible school district must verify all information submitted by the facility and work in collaboration with the facility for any corrections. The school district must submit the Superintendent's Certification to the State with the superintendent's signature. After the State has verified all submitted claims and cleared all discrepancies, reimbursements will be dispersed to the school districts.**

The procedures for out-of-state residential facilities will be the same as in previous years. The out-of-state facility will send detailed student information including instructional days to the school district. The school district will manually enter students online into the MYSPED Residential Placement Out-of-State application. Districts with out-of-state residential students will also need to submit the Superintendent's Certification with the superintendent's signature.

Reimbursement Requests In State/Out-of-State Facilities

In-State Facilities

The school districts listed in the table have a facility within their jurisdiction. Residential reimbursement requests will be submitted online through the web-based Residential Placement Registry (RPR) by the facility. These school districts will use the MYSPEd Residential Placement (RPA) to verify the request submitted by the facility in their jurisdiction. During verification process districts must contact the facilities if there are any billing discrepancies.

Out-Of-State Facilities

School districts will be receiving bills from the Out-Of-State facility. All out-of-state residential reimbursement requests must be submitted online through the MYSPEd Residential Placement Out-of-State (RPA) by the district from which the student resides. Districts can request reimbursement for disabled students only.

*Note: The reimbursement rate will be \$60 per day.

REQUESTING CURRENT QUARTER REIMBURSEMENTS

In-State facilities reimbursement requests must be submitted online through the web-based Residential Placement Registry (RPR) application by the facility for in-state. Out-of-state facilities must continue to submit detail student information to the responsible district for reimbursement request.

Quarter Due Dates

The calendar shown in the table below indicates Quarter (Service) Begin and End dates, quarterly RPR data entry dates, and quarterly deadlines for the submission of requests and the “Superintendent’s Certification”.

**** RPA Cycle - Days that the Residential Placement Application will be available for data entry.

		TOTAL DAYS	178			

Please **DOUBLE CHECK** student information before entering into the RPA system.

This calendar enables all residential facilities to invoice school districts for a maximum of 178 days of educational service. The same dates are available for all in-state and out-state residential facilities to provide educational services and invoice districts for these services. This calendar of eligible billing dates for residential educational services is to allow residential facilities to invoice districts for educational service that are provided on days schools are closed due to weather and/or road conditions.

SUBMISSION OF PRIOR QUARTER REIMBURSEMENT REQUEST

Please note that once a quarter's RPR cycle is closed, any late request will need to be keyed in the **RPR Late Submission Application**. Late submissions are only available for 1st, 2nd and 3rd quarters. **Please note that late requests may be submitted online at any time after the 1st quarter but will not be considered for payment from the ADE until the 4th quarter of the fiscal year.** Late submissions will be paid only during the 4th quarter of the fiscal year and only if sufficient funds remain after all current quarter requests have been processed/paid.

Opening an Account

An account registration form is available online. This form must be completed and submitted to ADE Special Education Grants and Data office in order to open an account. Once the account registration form has been received a username and password will be given for access to Residential Placement Registry (RPR). The username will be the LEA number of the district where the facility is located plus an assigned 3 digit code (Example: 6001001). See the account registration form for additional information.

*****IMPORTANT*****

Adding Student Information - Please read carefully

After locating the Residential Placement Registry (Regular) screen, click on 'Add Student' option to begin entering information for students.

Figure 4 shows the screen for entering detailed information such as the student demographics, disability, last educational setting, active or inactive status, and instruction days.

PLEASE DOUBLE CHECK SS #, NAME, DOB BEFORE ENTERING.

Only the information marked with the **red asterisk *** (upper section) is required for the system to "Save" a record for the student.

Do not add discharge status information for student until instructional dates have been finalized (see discharged student section).

A detail description of each field can be found on page 14 of this user guide. After the initial "Save" of the information per student, the only information that will need to be maintained is the instructional days for each quarter.

PLEASE BE CAUTIOUS

When entering the student information. Corrections can not be made once the "SAVE" button has been clicked. You will be required to contact the Special Education Finance Administrator at 501-682-4293 and ask for technical assistance concerning the RPR application.

Instructional End Date

The instructional days section has add and delete functions. Enter the “instructional start date” and “instructional end date” (last date of instruction or end of quarter date) for the instruction date interval. Then click the “Add” button, the date interval record will appear in the instruction date grid, therefore allowing the system to capture the information during the “Save” of the student record. If an existing date interval is not needed, click the delete button just before the date interval. The system will accept entry of just the “instructional start date”, in those cases where the end date is not yet known. The system will not include this interval in the calculation of total instructional days if there is not an end date. Another entry can be made when the end date is known (last date of instruction before discharge or last date for quarter). Add as many date intervals as needed in order to be accurate on the exact number of instructional days. For example, in Figure 5, the student enrolled in the facility on ‘08/20/2012’ but end date was not yet known. On ‘09/12/2012’ the student discharged. Another entry was made with the student’s start date ‘08/20/2012’ and the end date ‘09/12/2012’ of instruction.

Adding Student Information (continues)

Exclude all absentee dates. If student misses a day of instruction for any reason, make another entry with the student's start date, skipping the missed date. The example in Figure 7 demonstrates this instance. On '09/17/2012' the student was absent.

Another entry with start date '09/18/2012' was made at that time. Later a final quarter entry was made using that same start date and the end date for the quarter.

The "Save" button must be selected after the completion of adding a record and all edits, including the adding/deleting of instructional dates, for changes to be saved in system. Make sure you see the **"Successfully data has been saved"** message for verification of save.

Adding Student Information (continues)

The calculate days button is used for calculating total instructional days for all date intervals for the student within the quarter. The system uses the calendar outline on page 4 and 5 when figuring instructional days, refer to for any date that is billable as an instructional day. Non-billable dates will be automatically excluded from interval totals during calculation (see page 5 for non-billable dates). Exclude all non-instructional days including absences by creating a new interval that excludes the absent date.

Editing Student Information

To edit a student's record already entered and saved, click on (the *EDIT* icon) from the RPR (Regular) screen. This provides access to the student's detail information screen. After modifications to the record, always save the changes before exiting the screen. If you select the "*EDIT*" icon and decide not to edit the information, just exit, to leave the student detail information screen.

Discharged students cannot be edited.

Please refer to the discharged student's section for more information.

Students are discharged by changing the status of a student from active to 'discharged' along with adding discharged date and post discharge setting. Saving the record with this information puts the student in an inactive mode. Discharged students cannot be edited. **Therefore, please make sure student information is accurate and instructional dates are entered before discharging student.** To change a student's discharged/inactive status, locate the RPR (Regular) screen and click the "change status" icon (amber color) 🔄 (Icon is green for active student and amber when a student is inactive).

Invoicing Procedures

All information must be entered by the announced deadline (see page 4 for “Deadline for facilities to enter student data”) for the current quarter. A report can be generated for invoicing purposes. The facility is responsible for providing the school district with invoice summarizing the total cost using the current rate per day (Currently \$60) for students with disabilities and without disabilities. The export to excel option on the main menu copies data from system. This data can be used to assist with the creation of an invoice.
